Mouse Kidney Injury Molecule 1 (KIM-1) ELISA Kit BYT-ORB1806780

Article Name	Mouse Kidney Injury Molecule 1 (KIM-1) ELISA Kit
Biozol Catalog Number	BYT-ORB1806780
Supplier Catalog Number	orb1806780
Alternative Catalog Number	BYT-ORB1806780-48,BYT-ORB1806780-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Mouse
Product Description	Mouse Kidney Injury Molecule 1 (KIM-1) ELISA Kit...
Range	0.16-10ng/mL
Sensitivity	0.1 ng/mL
UniProt	Q5QNS5
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	KIM-1

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse KIM-1. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse KIM-1 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse KIM-1, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Mouse KIM-1. You can calculate the concentration of Mouse KIM-1 in the samples by comparing the OD of the samples to the standard curve
