## Product Datasheet

### Rat Adrenocorticotrophic Hormone (ACTH) ELISA Kit BYT-ORB1806851

Article Name	Rat Adrenocorticotrophic Hormone (ACTH) ELISA Kit
Biozol Catalog Number	BYT-ORB1806851
Supplier Catalog Number	orb1806851
Alternative Catalog Number	BYT-ORB1806851-48,BYT-ORB1806851-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Rat
Product Description	Rat Adrenocorticotrophic Hormone (ACTH) ELISA Kit...
Range	15.63-1000pg/mL
Sensitivity	9.38 pg/mL
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	ACTH

Application Notes

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Rat ACTH. During the reaction, Rat ACTH in the sample or standard competes with a fixed amount of Rat ACTH on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Rat ACTH. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm  $\pm$  2 nm. The concentration of Rat ACTH in tested samples can be calculated by comparing the OD of the samples to the standard curve
