Product Datasheet

Mouse Centromere Protein E (CENPE) ELISA Kit BYT-ORB1947587

Article Name	Mouse Centromere Protein E (CENPE) ELISA Kit
Biozol Catalog Number	BYT-ORB1947587
Supplier Catalog Number	orb1947587
Alternative Catalog Number	BYT-ORB1947587-48,BYT-ORB1947587-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Mouse
Product Description	Mouse Centromere Protein E (CENPE) ELISA Kit...
Range	0.16-10ng/mL
Sensitivity	0.1 ng/mL
UniProt	Q6RT24
Samples	serum, plasma, Tissue homogenate and Other biological samples
Target	CENPE

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse CENPE. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse CENPE and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse CENPE, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Mouse CENPE. You can calculate the concentration of Mouse CENPE in the samples by comparing the OD of the samples to the standard curve
