Product Datasheet

Human S100 Calcium Binding Protein A2 (S100A2) ELISA Kit BYT-ORB1948250

Article Name	Human S100 Calcium Binding Protein A2 (S100A2) ELISA Kit
Biozol Catalog Number	BYT-ORB1948250
Supplier Catalog Number	orb1948250
Alternative Catalog Number	BYT-ORB1948250-48,BYT-ORB1948250-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human S100 Calcium Binding Protein A2 (S100A2) ELISA Kit...
Range	0.32-20ng/mL
Sensitivity	0.19 ng/mL
UniProt	P29034
Samples	Tissue homogenate, Cell lysate and Cell culture supernatant
Target	S100A2

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human S100A2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human S100A2 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human S100A2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human S100A2. You can calculate the concentration of Human S100A2 in the samples by comparing the OD of the samples to the standard curve
