Product Datasheet

Human Proline Rich Protein 4, Lacrimal (PRR4) ELISA Kit BYT-ORB1949918

Article Name	Human Proline Rich Protein 4, Lacrimal (PRR4) ELISA Kit
Biozol Catalog Number	BYT-ORB1949918
Supplier Catalog Number	orb1949918
Alternative Catalog Number	BYT-ORB1949918-48,BYT-ORB1949918-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human Proline Rich Protein 4, Lacrimal (PRR4) ELISA Kit...
Range	0.32-20ng/mL
Sensitivity	0.19 ng/mL
UniProt	Q16378
Samples	Tissue homogenate and Cell lysate
Target	PRR4

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human PRR4. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human PRR4 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human PRR4, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human PRR4. You can calculate the concentration of Human PRR4 in the samples by comparing the OD of the samples to the standard curve
