Purity	Anti-Histone H3 [ac Lys9] was affinity purified from monospecific antiserum by immunoaffinity chromatography. This antibody reacts with human Histone H3.2. A BLAST analysis was used to suggest cross-reactivity with Human, mouse, and <i>C. elegans</i> . Predicted to react with many species including rat, chicken, <i>Xenopus</i> , <i>Drosophila</i> , and plant based on 100% sequence homology. Cross-reactivity with Histone H3 from other sources has not been determined.
Form	Liquid (sterile filtered)
Application Dilute	ChIP: 2-5µg/million cells, IHC: 1:100, IF: 1:100, WB: 1:500
Application Notes	Application Notes: Anti-Histone H3 [ac Lys9] antibody is tested for Western Blot, Chromatin Immunoprecipitation, Dot Blot, and Immunofluorescence. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately ~15.4 kDa corresponding to Histone H3 protein by Western Blotting in HeLa histone prep lysate or the appropriate cell lysate or extract.
