## Product Datasheet

### **Phospho-ATF2 (Thr71) (Clone: G3) rabbit mAb APC conjugate, Clone: [ATF2T71-G3], Rabbit, Monoclonal ABI-12-4053-10**

|                            |                                                                                                                                                                                                                                                               |

| Species Reactivity         | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                  | A synthetic phospho-peptide corresponding to residues surrounding Thr71 of human phospho ATF2                                                                                                                                                                 |
| Conjugation                | APC                                                                                                                                                                                                                                                           |
| Product Description        | Activating transcription factor 2 (ATF2), known as cyclic AMP (cAMP) response element (CRE) binding protein 2 (CREB2) and CRE-BP1 is a member of the activating protein-1 (AP1) transcription factor family. Through homo-dimerization or hetero-dimerizat... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [ATF2T71-G3]                                                                                                                                                                                                                                                  |
| Form                       | Conjugated                                                                                                                                                                                                                                                    |

|                    |                                                                                                                                                                                                                                                                |

| Application Dilute | For flow cytometric staining, the suggested use of this reagent is 5 $\mu\text{L}$ per million cells or 5 $\mu\text{L}$ per 100 $\mu\text{L}$ of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
