| Application                | ELISA                                                                                                                                                                                                                                                                                                                                                       |
| Product Description        | Specificity: Anti-SARS-CoV-2 Nucleocapsid, clone NP1-E9, specifically targets an epitope on the SARS-CoV-2 nucleocapsid protein. Furthermore, it is reported to bind to the oligomerization domain of the N protein. Antigen Distribution: The nucleocapsid...                                                                                              |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                                                                                                                  |
| Clone Designation          | [NP1-E9]                                                                                                                                                                                                                                                                                                                                                    |
| Purity                     | Purity :>=90% monomer by analytical SEC and SDS-PagePreparation : Recombinant antibodies are manufactured in an animal free facility using only in vitro protein free cell culture techniques and are purified by a multi-step process including the use of protein A or G to assure extremely low levels of endotoxins, leachable protein A or aggregates. |
