| Category                   | Antikörper                                                                                                                                                                                                                            |
| Application                | WB                                                                                                                                                                                                                                    |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                                                                     |
| Immunogen                  | Peptide sequence around phosphorylation site of threonine 258 (N-I-T(p)-Y-L) derived from Human PHB.                                                                                                                                  |
| Product Description        | Prohibitin inhibits DNA synthesis. It has a role in regulating proliferation. As yet it is unclear if the protein or the mRNA exhibits this effect. May play a role in regulating mitochondrial respiration activity and in aging.... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                            |
