| Immunogen                  | Peptide sequence around aa. 229~233 (V-R-T-P-P) derived from Human Tau.                                                                                                                                                                                       |
| Product Description        | Promotes microtubule assembly and stability, and might be involved in the establishment and maintenance of neuronal polarity. The C-terminus binds axonal microtubules while the N-terminus binds neural plasma membrane components, suggesting that tau f... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
