| Immunogen                  | SU-DHL-1 large cell lymphoma cells                                                                                                                                                                                                                            |
| Product Description        | This MAb recognizes an antigen associated with the Golgi complex in human cells only. It can be used to stain the Golgi complex in cell or tissue preparations and can be used as a Golgi marker in subcellular fractions. It produces a diffuse staining ... |
