| Immunogen                  | Recombinant human HER-2 protein fragment (around aa 311-462) (exact sequence is proprietary)                                                                                                                                                                  |
| Product Description        | Recognizes a protein of 185kDa, which is identified as c-erbB-2/HER-2/neu. Its epitope is localized in the extracellular domain. C-erbB-2/HER-2 is a member of the EGFR family. This MAb is specific and shows minimal cross-reaction with other members o... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
