| Immunogen                  | Recombinant fragment of human TOX3 protein (around aa 251-389)<br>(Exact sequence is proprietary)                                                                                                                                                                          |
| Product Description        | It recognizes a 63kDa protein, which is identified as TOX3. It contains a high mobility group (HMG)-box, which regulates Ca <sup>2+</sup> -dependent transcription in neurons through interaction with the cAMP-response-element-binding protein (CREB). TOX3 appears t... |
