| Immunogen                  | Purified recombinant human IFN-alpha2                                                                                                                                                                                                                   |
| Product Description        | Recognizes a protein of 16-27kDa, identified as human interferon-II (IFN-II). Its epitope maps between aa112-148 of IFN-II (total aa172). This MAb is specific for IFN-II and does not cross-react with IFN-I). The site recognized by this MAb is c... |
