| Immunogen                  | Recombinant human ASRGL1 fragment                                                                                                                                                                                                                             |
| Product Description        | ASRGL1 (Asparaginase-like protein 1), also known as CRASH, is a 308 amino acid protein belonging to the Ntn-hydrolase family. Asparaginases utilize asparagine as a substrate to produce aspartic acid and ammonia. ASRGL1 has been identified as a autoan... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [CRASH/1289]                                                                                                                                                                                                                                                  |
