| Category                   | Biochemikalien                                                                                                                                                                                                                                                |
| Product Description        | Red Fluorescent Rapid Labelling Kit (AF555) enables red fluorescent labelling of proteins. Maximum excitation/ Emission Wavelength: 555/565 nm. Based on NHS ester chemistry, the NHS ester-activated fluorescent dye reacts with primary amines in pH 7-9... |
| Application Notes          | MCE Product type: Dye Reagents                                                                                                                                                                                                                                |
