| Application                | FC                                                                                                                                                                                                                                                            |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant intracellular domain (aa 29-186) of human TRIM.                                                                                                                                                                                                   |
| Conjugation                | PE                                                                                                                                                                                                                                                            |
| Product Description        | TRIM (T cell receptor-interacting molecule), also known as TRAT1 (T cell receptor associated transmembrane adaptor 1) is a 30 kDa protein expressed by T cells as a cystein-linked homodimer. It associates with TCR-CD3-zeta-chain complex and becomes ph... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.1 mg/ml                                                                                                                                                                                                                                                     |
| Clone Designation          | [TRIM-04]                                                                                                                                                                                                                                                     |
| Isotype                    | IgG2a                                                                                                                                                                                                                                                         |
| Buffer                     | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                       |

|                   |                                                                          |
|-------------------|--------------------------------------------------------------------------|
| Storage           | 2°C to 8°C                                                               |
| Antibody Type     | Monoclonal Antibody                                                      |
| Application Notes | Flow cytometry: Recommended dilution: 1-5 µg/ml. Intracellular staining. |
