| Category                   | Antikörper                                                                                                                                                                                                                                                     |
| Application                | FC                                                                                                                                                                                                                                                             |
| Species Reactivity         | Human                                                                                                                                                                                                                                                          |
| Immunogen                  | NALM-6 human pre-B cell line                                                                                                                                                                                                                                   |
| Conjugation                | PE-DyLight 594                                                                                                                                                                                                                                                 |
| Product Description        | CD10 (neutral endopeptidase &8211, NEP, common acute lymphocytic leukemia antigen &8211, CALLA, membrane metallo-endopeptidase &8211, MME, enkephalinase) is a 100-kDa cell surface zinc metalloprotease, cleaving peptide bonds on the N-terminus of hydro... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                     |
| Clone Designation          | [MEM-78]                                                                                                                                                                                                                                                       |
| Isotype                    | IgG1                                                                                                                                                                                                                                                           |

|                   |                                                                                                                                                                                                                            |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer            | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                    |
| Storage           | 2°C to 8°C                                                                                                                                                                                                                 |
| Antibody Type     | Monoclonal Antibody                                                                                                                                                                                                        |
| Application Notes | Flow cytometry: The reagent is designed for analysis of human blood cells using 4 µl reagent / 100 µl of whole blood or 10 <sup>6</sup> cells in a suspension. The content of a vial (0.4 ml) is sufficient for 100 tests. |
