| Conjugation                | HRP                                                                                                                                                                                                                                                                                                                            |
| Product Description        | ELISA Flex kit for quantification of IFN-gamma in solution, The cotton rat IFN-gamma (IFN-gamma) ELISA Flex kit is ideal for users who want the flexibility of setting up their own ELISA assay. This product enables quantification of cotton rat IFN-gam...                                                                  |
| Range                      | 6-600 pg/ml                                                                                                                                                                                                                                                                                                                    |
| Target                     | IFN-gamma                                                                                                                                                                                                                                                                                                                      |
