| Product Description        | ELISA Flex kit for quantification of IL-29 (IFN-lambda1), The human IL-29 ELISA Flex kit is ideal for users who want the flexibility of setting up their own ELISA assay. This product enables quantification of human IL-29 in solution, e.g. in cell cul...                                                                                                                                                                                                         |
| Range                      | 4-400 pg/ml                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| NCBI                       | <a href="#">282618</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                |
