| Category                   | Sonstiges                                                                                                |
| Species Reactivity         | Human, Mouse                                                                                             |
| Product Description        | CircuLex Human S100A8...                                                                                 |
| Concentration              | 1.0 µg/µl                                                                                                |
| Molecular Weight           | Recombinant human S100A8 demonstrates approximately 34 kDa band by SDS-PAGE analysis.                    |
| NCBI                       | <a href="#">20201,6279</a>                                                                               |
| Storage                    | -80°C                                                                                                    |
| Formula                    | Recombinant human S100A8 is supplied frozen in phosphate buffered saline (PBS) containing 50 % glycerol. |
| Target                     | S100A8                                                                                                   |
