| Manufacturer               | LKT Labs                                                                                                                          |
| Category                   | Biochemikalien                                                                                                                    |
| Product Description        | Mineralocorticoid, aldosterone, AR antagonist, ENaC channel blocker, potential voltage-gated Ca <sup>2+</sup> channel blocker.... |
| Molecular Weight           | 416.57                                                                                                                            |
| Purity                     | 97%                                                                                                                               |
| CAS Number                 | [52-01-7]                                                                                                                         |
| Formula                    | C <sub>24</sub> H <sub>32</sub> O <sub>4</sub> S                                                                                  |
| Application Dilute         | Soluble in organic solvents. Practically insoluble in water.                                                                      |
