| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | A5 scFv was isolated from a phage display. The source of the antibody genes came from the spleens of mice which had been immunized with f88 filamentous bacteriophages displaying a peptide derived from the extracellular N-terminus (aa 1-18) of human M... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [A5 scFv]                                                                                                                                                                                                                                                     |
