| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | This therapeutic antibody was generated by radiolabelling, using a modified Iodo-gen procedure, murine anti-human tenascin Mab 81C6. Mab 81C6 was raised by immunizing mice with the glial fibrillary acidic protein-positive human glioma cell line U-251... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [I-81C6 Neuradiab]                                                                                                                                                                                                                                            |
| Isotype                    | IgG2b                                                                                                                                                                                                                                                         |
| UniProt                    | <a href="#">P24821</a>                                                                                                                                                                                                                                        |
| Buffer                     | PBS with 0.02% Proclin 300.                                                                                                                                                                                                                                   |
