| Product Description        | Goat anti-rabbit IgG (H&L), DyLight 550 conjugated, is a secondary antibody which binds to rabbit IgGs in immunological assays. DyLight 550 has Amax = 562 nm, Emax = 576 nm. Fluor to protein ratio is 2.47 moles DyLight 550 per mole antibody. Antibodi... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Purity                     | Immunogen affinity purified IgG.                                                                                                                                                                                                                              |
| Form                       | Lyophilized                                                                                                                                                                                                                                                   |
| Antibody Type              | Polyclonal Antibody                                                                                                                                                                                                                                           |
| Application Dilute         | 1 : 50 -1 : 5000 (ICC), 1 : 20 -1 : 2000 (IHC),                                                                                                                                                                                                               |

Application Notes

For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily
