Product Datasheet

Anti-HSP26,5 | Heat shock protein 26,5 (mitochondrial), Rabbit, Polyclonal AGR-AS15-2981

Article Name	Anti-HSP26,5 Heat shock protein 26,5 (mitochondrial), Rabbit, Polyclonal
Biozol Catalog Number	AGR-AS15-2981
Supplier Catalog Number	AS15-2981
Alternative Catalog Number	AGR-AS15-2981
Manufacturer	Agrisera
Host	Rabbit
Category	Antikörper
Application	WB
Species Reactivity	A. thaliana
Immunogen	KLH-conjugated synthetic peptide derived from Arabidopsis thaliana HSP26.5, mitochondrial, UniProt: Q9SSQ8, TAIR: At1g52560
Product Description	HSP26.5 heat shock protein 26.5 (mitochondrial) belongs to small heat shock protein family and is localized in mitochondria....
Clonality	Polyclonal
Molecular Weight	26.5 23 kDa
NCBI	841687
UniProt	Q9SSQ8
Purity	Immunogen affinity purified serum in PBS pH 7.4.

Form	Lyophilized
Antibody Type	Polyclonal Antibody
Application Dilute	1 : 1000 (WB)
Application Notes	Please note that there might be no HSPs accumulation below temperature of 32-34C. HSPs are induced when the plant experience temperatures higher than the growing temperature with around 10C. So, the HSPs induction temperatures for plants grown at 18C differ from these for plants grown at 24C. Another very effective parameter is the humidity. When using low humidity the plant has a chance to cool down through transpiration. In this case the HSPs induction requires higher temperatures.
