| Product Description        | Clone APN/1464 recognizes cell surface CD13 antigen, a 150kDa membrane glycoprotein. The CD13 antigen is highly expressed on myeloid-derived hematopoietic cells including granulocytes, monocytes, mast cells, and GM-progenitor cells. CD13 abundantly e... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
